SITE INVESTIGATION AND RESTORATION SECTION – The Division's Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>

FINAL PLAN OF REMEDIAL ACTION FOR THE FREAR PROPERTY SITE (DE-1559) -

DNREC has adopted a plan regarding the cleanup of the Frear Property Site at the intersection of South State Street Extension and Golden Oak Lane in Camden-Wyoming. The 20-acre site is a farm field. The remedial action required for the site is an environmental covenant on the deed of the property prohibiting residential use. The public may appeal this Final Plan by **November 19**. For additional information, please contact Stephen F. Johnson, PE, Project Manager or Robert Newsome, Public Information Officer, at (302) 395-2600 or visit:
